OUR STORY

Forged in Fire, Refined by Time

The story of Reihey began in 1981 around a single furnace in a modest workshop.

For over four decades, our focus has been unwavering: transforming sand and fire into objects of both beauty and purpose. What started from humble origins has grown into a leading presence in China's daily-use glassware industry—yet we have never lost the artisanal soul our founders instilled.

Today, Reihey harmonizes generations of glassmaking craftsmanship with cutting-edge technology. It is this unique blend of heritage & innovation that defines who we are. Empowered by this fusion, we deliver trusted solutions for households & packaging across the globe—each piece a testament to our unwavering commitment to quality.
